Risk and reward profile

Equity and property investments are volatile by nature and subject to potential capital loss. For credit and income instruments, while unlikely, capital loss may also occur due to an event like the default of an issuer. The portfolio may be subject to currency fluctuations due to its international exposure.

Investment Approach

This strategy solution is managed in accordance with the Nedbank Private Wealth investment philosophy to achieve the fund objective. We have a depth of investment expertise and apply an active, valuation-driven process to construct diversified multi-asset class strategies. Our portfolios contain a foundation of quality assets. These are complemented by satellite investments that together aim to achieve defined, risk-managed investment outcomes for our clients.

Portfolio Profile

This strategy will seek a degree of income and real capital growth objectives through a blended allocation to risky assets and income yielding assets. The asset allocation for this solution is determined by the monthly strategic investment committee, who seek to achieve optimal diversification of the asset classes by making use of proprietary research tools. The portfolio is structured as a fund of funds.

Mandatory disclosures:

1. Funds are valued daily at 15:00. Instructions must reach us before 14:00 (12:00 for Nedgroup Money Market Fund) to ensure same day value. Daily prices are available on request from your relationship manager.
2. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of reinvestment and dividend withholding tax. Data source: © 2015 Morningstar.
3. Total Expense Ratio (TER), expressed as a percentage of the Fund, relates to expenses incurred in the administration of the Fund. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's. Transaction Costs (TC), expressed as a percentage of the Fund, relates to the costs incurred in buying and selling the underlying assets of the Fund. TC are a necessary cost in administering the fund and impacts fund returns. It should not be considered in isolation as returns may be impacted by other factors over time including market returns, the type of fund, the investment decisions of the investment manager and the TER. The Total Investment Charges expressed as a percentage of the Fund, relates to all investments costs of the Fund. Both the TER and TC of the Fund is calculated on an annualised basis, beginning July 2014 and ending June 2017.

Whilst Nedbank Private Wealth offers you a choice of investment services, the underlying funds forming part of Nedbank Private Wealth strategy solution, are managed by Nedgroup Investments. Unit trusts are generally medium to long term investments. The value of your investment may go down as well as up. Past performance is not necessarily a guide to future performance. Nedgroup Investments does not guarantee the performance of your investment and even if forecasts about the expected future performance are included you will carry the investment and market risk, which includes the possibility of losing capital. Unit trusts are traded at ruling prices and can engage in borrowing and scrip lending. Certain unit trust funds may be subject to currency fluctuations due to its international exposure. Nedgroup Investments has the right to close unit trust funds to new investors in order to manage it more efficiently. A fund of funds may only invest in other unit trust funds, that levy their own charges, which could result in a higher fee structure. A schedule of fees and charges and maximum commissions is available on request from Nedgroup Investments. For further additional information on the fund, including but not limited to, brochures, application forms and the annual report please contact your relationship manager.
